

MUST CONTINUE TO BUY IN U. S.

May Be 20 Years Before Europe Can Compete With American Factories.

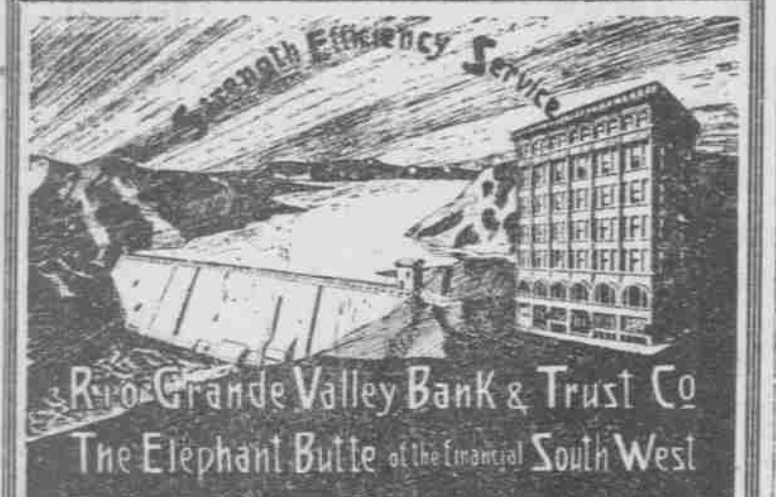

Paris, France, Nov. 28.—That the volume of business between the United States and Europe will not cease with the war, that the United States will not for several years have to fear European competition in manufactured products, is the opinion expressed here by Robert Pinot, general secretary of the Comité des Forges de France. This organization is the official representative of the French works and all the other iron and steel manufacturers of France and the medium through which the French government is now securing large quantities of war munitions for the use of the French and Russian armies.

French Roads Buy Equipment.
There is a prospect for large orders of American railway supplies being placed in France. The Northern and Eastern railways suffered severely by the German invasion, and the other four large railway systems are badly in need of new material of all kinds. So far American car firms have taken orders for 10,000 freight cars, March delivery. Other orders amounting to more than \$20,000,000 were being placed by the French roads when the Balkan situation interfered with available ocean freights and now these orders are either being delayed or being placed in England.

"STEINWAY" PIANOS.
A shipment of both grand and upright pianos received. We invite you to see them in our own stock. The fear that so soon as the war is ended the manufacturers now busy making arms and munitions and shells will convert their factories into the making of products to compete with yours is unfounded.

Most Improve Output.
"What chance is there for the American to do a steady business with us after the war is over, to follow up and establish himself in the business now begun? I am not a prophet, and the war is not yet over. But here is a fact to be considered by the American manufacturer. So far as concerns France, we iron and steel men had begun to do a surprising business in the few years before the war. We were not only filling the demands made in this line on the home market, but we were beginning to go into the foreign trade. France had almost ceased to be an agricultural nation. I believe, too, that our products were the most perfectly made in the world. They were made to stand up to wear. I don't say that we were right in manufacturing this way, that the American method is not the better, but our customers demanded long wearing articles, and we satisfied their demands. An American locomotive is built to last seven years, whereas the railways here supply want them to last 20 years. This is a condition the American must meet in future competition with us."

For breakfast tomorrow try Steinway's Malted Bacon. "Deliciously Different."—Adv.

CARDIFF GIANT A FAMOUS HOAX

Pete Barnum First Exhibited "Stoneman," Many El Pasoans Fooled.

The digging up of a stone man in the Rio Grande valley by J. K. Barnum of Highland Park, recalls to the mind of D. W. Reckhart the story of the Cardiff giant, for which P. T. Barnum of circus fame was responsible, and which turned out to be reinforced concrete.

In handling the giant, for the figure was 11 feet in length and with the weight of three men, one was careless enough to snap off an arm. A bar of steel was observed by some of the onlookers, and that marked the beginning of the end of the Cardiff giant as a side show asset.

30 Years Ago.
The demolition of the Cardiff giant, according to Mr. Reckhart, 30 years ago, "A giant had come to town," he says, "an accumulation of debts and great bills and quarrels on the part of acrobats and impostors had already caused a disturbance. Then came the discovery of the Cardiff giant, and the Cardiff giant was a humbug. It was the undoing of the circus and the performance of the Cardiff giant was the undoing of the Cardiff giant."

Fooled the Judges.
Judge John Ryan and Judge T. A. Falvey were two of the victims of the Cardiff giant hoax as he lay in state in St. Ryan's place. The program was to select some one who had a good deal of pride and to tell them that St. Ryan had called them names. At this dignity of the men would be humiliated and they would say: "Well, when in this fellow 'Stoneman' I'll teach him to talk about gentlemen."

In Someone's Back Yard.
"What happened to the stoneman?" "Well, that's hard to say. The last I saw of him was in the back yard of a lady place upon the highest point in Sunset Heights. He was there for a long while until that country built up and for all I know, may be in some one's back yard, to be dug up at some remote time and bewilder and puzzle folks for a while more."

Men With Personality.
"We want men with personality as well as men with executive ability. Fifteen years ago I was a beginner myself. Fifteen years from now some of you are going to be in the executive places. It remains to be seen which of you are the successful ones. I believe that this institute work will be one of the deciding factors in the success of many of you."

CITY HALL WORK NEARS END; ALDERMEN HAVE MORE ROOM
Work is nearing completion on the remodeling of the basement of the city hall. Mayor Tom Lea has definitely decided that the offices of the building inspector, planning inspector, electrical inspector and sewer commissioner hall be located on the north side of the large room that opens out to the west side of the city hall, and that the park commissioner, permit clerk, sidewalk inspector and possibly others will have offices on the south side of the room.

SCHOOL APPORTIONMENT IS EXPECTED TO BE 75 CENTS
Austin, Tex., Nov. 28.—When the apportionment of the school fund is made on December 1, it will be the first of the present scholastic year, and it is expected to be not less than 72 cents per capita for the month of December. The total apportionment for the entire fiscal year is only \$4.

GERMANY WILL PROTEST ON BEHALF OF ATTACHE
Washington, D. C., Nov. 28.—It is pretty definitely known here that the German embassy, no matter what the outcome of the trial of the officials of the German navy, will protest to the United States against the accusations which have been made regarding the sinking of the German naval attaché, Roy-Ed, at sea.

SECURITY LEAGUE ENDORSES WILSON'S DEFENCE PROGRAM
Chicago, Ill., Nov. 28.—The national defense program of President Wilson received the approval of the National Security League Saturday as a step in the right direction. The league, however, criticized the navy plan as not providing for a suitable personnel for the ship and for making the time for the increase in the navy too long.

BANK MUST BE A DEEP TANKER

American Institute Director Says Bank Clerks Do Not Think Enough.

"The trouble with the average American banker and bank clerk is that they do not think deeply," said George E. Allen, educational director of the American Institute of Bankers, New York City, and speaker before an assembly of the local chapter of the institute at the chamber of commerce Saturday evening.

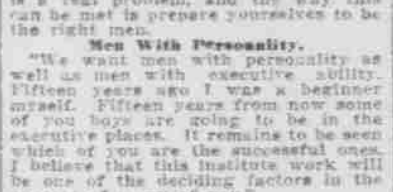

Definite Science.
The speaker dwelt on the fact that banking is definite science and that it takes into account all industries and therefore it is necessary that a successful banker be a thoroughly equipped economist. He said very frankly that banking was a method in the same thoroughness the world, that the possibilities and opportunities were the things which made the test in a bank.

Two Love Birds.
Mrs. S. Johnston, 291 West Overland street, reported to the police Saturday morning the theft of a pair of love birds, a male and a female, from her home. The birds were in a cage.

Charged With Stealing Tools.
J. Calhoun and Adella Mendez were arrested Saturday afternoon by officers J. R. Stanton and J. M. Perry on a charge of stealing tools from the El Paso Drug Company and the other carrying a pistol. Sanchez was apprehended while attempting to sell the quinine at the Stanton street drug store.

Charged With Taking Ford.
Bernard, Kossides and Jesus Trejo were arrested Sunday by the police on a charge of taking a Ford automobile belonging to E. M. Perry while the car was standing in San Francisco street, November 22. The car was later recovered. The two men will be transferred to the county court.

JAMES CROWLEY SHOT IN THE HIP

Mistaken for Burglar and Wounded; Two Love Birds Stolen From Cage.

James Crowley, a cleaner employed at the N. & J. cleaning works at 1212 Thomas street, was shot through the left hip Saturday at midnight, while in the front yard of Mrs. C. H. Morris, 1108 North Florence street. Two shots were said to have been fired at Crowley by J. Harding, at 1102 North Florence street, one of them taking effect. Mr. Harding stated to the police that Crowley believed as if he were attempting to burglarize the place. The wounded man was brought to the emergency hospital, where he was treated, and then placed in a cell pending an investigation of his case.

Crowley said that he stepped into the yard for a minute and that he was shot while on the inside of the fence. "I had been drinking during the evening but had no idea of entering any house," said Crowley. The wounded man has a brother, E. J. Crowley, who resides at 208 Montevideo.

T. & P. BRINGS 865 FARES TO EL PASO THANKSGIVING
According to figures just compiled, the Texas & Pacific railway brought 160 passengers into El Paso during the four days, Nov. 21, 22, 23 and 24. The company made a very low excursion rate for the Thanksgiving holiday which served to stimulate travel from the smaller places along the line to El Paso.
